

The background of the slide features a large number of 3D house models scattered across a white, reflective surface. The houses are rendered in a simple, blocky style with varying heights and roof shapes. Most of the houses have white or light gray roofs, but one house in the center-right area stands out with a bright red roof. The lighting is soft, creating subtle shadows and highlights on the surfaces of the houses and the ground.

**Local Solutions to the State's Housing Crisis Webinar Series**

The background of the slide features a large number of 3D house models scattered across a white, reflective surface. Most of the houses are white with grey roofs, while one house in the center has a distinct red roof. The houses vary in size and orientation, creating a sense of a diverse housing market.
