Sensitive service information including M/BH, SUD, DV/IPV, HIV/AIDS, and Legal is never shared beyond the service provider

3

## We keep client data **secure**

The Unite Us Platform is **HIPAA** compliant and **HITRUST** certified

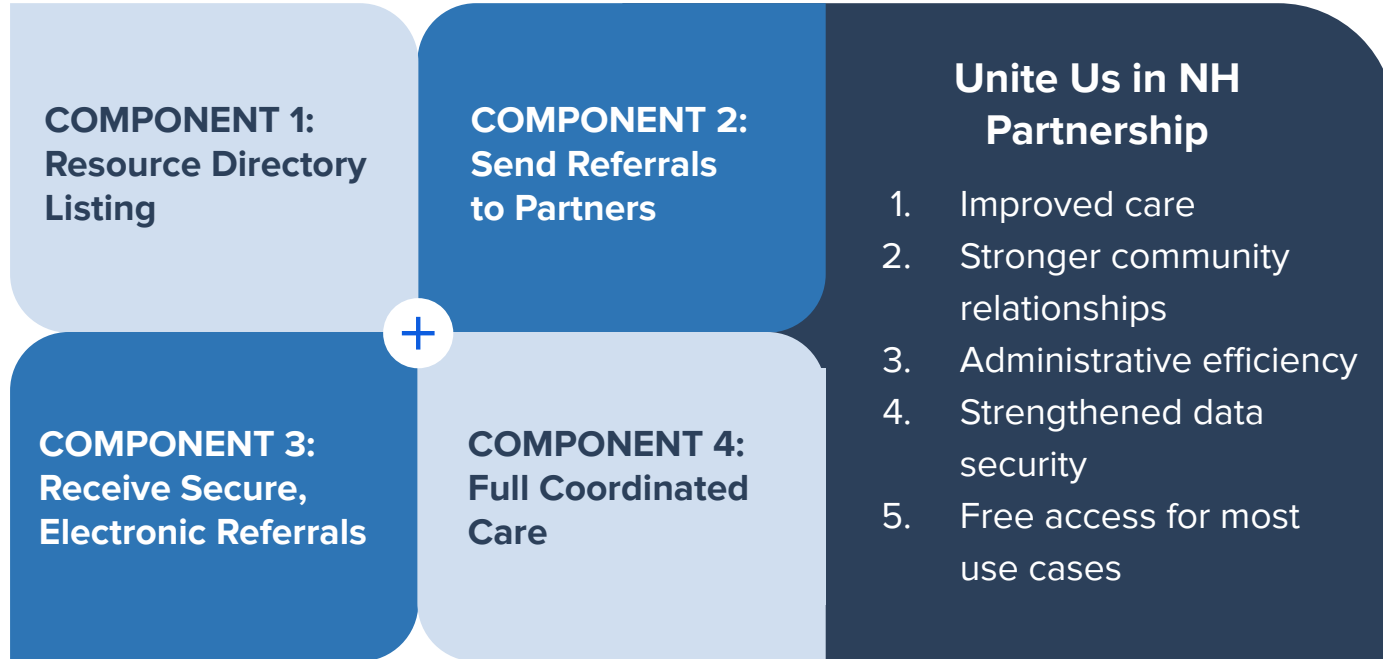

# Software Demonstration

The screenshot displays the UNITE US software interface. At the top, there is a navigation bar with the UNITE US logo, menu items for Dashboard, Clients, Reports, and My Network, and a user profile for Sara Jones. Below the navigation bar, the client profile for Kiki Williams is shown, including her name, a 'CONSENT ACCEPTED' status, and contact information: DOB 8/12/1948 (Age 72), TEL (789) 876-6556, and HOUSEHOLD 1. A 'REFER KIKI' button is located to the right. Below the profile information, there are tabs for Overview, Profile, Cases, Forms, Uploads, and Referrals. The main content area is divided into three sections: 'Care Team' with an 'Add New' button, listing Brian Longo and Charley O'Donnell; 'Open Cases' listing 'Benefits Navigation' and 'School Meals'; and 'Client Timeline'.

# Flexible Components for Network Participation

# Together, we're changing the future.
